Background

In August of 2020, South Florida-based artist Sri Prabha was commissioned to pursue a mixed-media artwork incorporating a three-dimensional wall sculpture, light-based elements, and integrated video content highlighting the biodiversity and aquatic ecosystems of the Miami River. The technology-based artwork, *Convergent Cognizance of a Multitude of Views and Beings Extolling Their Inner Light*, completed and installed in 2021 in the main lobby of the Gallery at River Parc, has become a well-regarded and beloved artwork among residents of the community. In July 2026, one of the monitors integral to the video component of the artwork went offline. APP staff subsequently contacted the artist to determine the appropriate course of action for replacement, programming, and reinstallation of the monitor. The artist has secured estimates from a qualified vendor for the procurement, programming, and installation of the replacement monitor, with the artist providing oversight to ensure that the artwork is restored in accordance with his original intent.

APP staff recommends the approval of Trust Resolution No. APPT 26-77 authorizing a Professional Artist Services Agreement in substantially the form attached with Sri Prabha Artlab, LLC (Sri Prabha, lead artist) in the fixed fee amount of $3,000.00 for conservation services of the Art in Public Places Collection Artwork *Convergent Cognizance of a Multitude of views and beings Extolling their Inner Light* by Sri Prabha Artlab, LLC at Gallery at River Parc.
