Vendor Selection

Pursuant to the requirements of Section 10-3 of the Miami-Dade County Code, as well as the Solicitation and Contract Documents, at the time of bid, the Bidder must hold one of the following valid, current, and active credentials:

A. License Requirements

a. Certificate of Competency from the County's Construction Trades Qualifying Board as a General Engineering Contractor; or as a Pipeline Engineering Contractor. The Pipeline Engineering Contractor shall subcontract with a qualified contractor any work which is incidental to the pipeline specialty but is specified in the aforementioned Code as being the work of other than that of the Engineering Specialty for which certified.

or

b. Certification, as a General Contractor or as an Underground Utility and Excavation Contractor, provided by the State of Florida Construction Industry Licensing Board, pursuant to the provisions of Florida Statutes Chapter 489.115.

B. Qualifications of the Contractor

1. The successful bidder shall submit a schedule of their proposed work, as bid, including information on the experience of the firm, the personnel assigned to the repair work, and especially the experience of the crew leaders who will actually run the work in the field, as well as information on all equipment and the type of process that will be used for lining. The Contractor must certify that their firm will self-perform all Main Line CIPP Lining, that their firm has Cure-in-Place Pipe (CIPP) Main Line Lining Crews capable of complying with the contract calendar days, and that the equipment is in the state of Florida. The contract will not be awarded, and no work shall commence until these submittals have been approved and the successful bidder has received a written Notice to Proceed, respectively.

2. Department reserves the right to reject individual crew leaders due to either inadequate experience or unsatisfactory or poor performance on the job (in the Department's or the Construction Manager's opinion). Along with his bid, the Contractor must submit proof that his/her firm has been regularly and successfully engaged in the commercial installation of the liner product for a minimum of one (1) year and has successfully performed an aggregate amount of at least 500,000 linear feet of sanitary sewer repairs of pipes 6 through 36 inches in diameter (or larger) in subaqueous conditions.

C. Experience

1. In addition to the license requirements, Bidders are required to submit at the time of bid the Cure-in-Place Pipe mainline experience providing current contact information for each referenced project that will allow the County to verify the referenced project.

2. The prime has to meet the requirement of experience to perform the work under this contract. The bidding entity as a firm shall have the required past experience.

3. The Prime Contractor and his proposed lining system, including verification that he is authorized by the manufacturer as an authorized installer, all main line lining work shall be performed by the contractor's own forces.

4. Subcontracting of the CIPP main line lining is not permissible. Contrary to any other provisions within the Contract Documents related to subcontracting, due to the nature of this project. The Prime Contractor shall be required to self-perform all CIPP main line lining.

5. The contractor may utilize approved subcontractors to complete the ancillary services to repair as required above. The Contractor will require the following use of approved subcontractors:

- Independent Main Line and service laterals CCTV television inspection survey and cleaning crews.
- Independent Grout Sealing of Active Service Laterals & Closed-Circuit Television Video (CCTV) Inspection crew.
- Independent CIPP Lateral Lining, Cleaning, & Closed-Circuit Television Video (CCTV) Inspection crew.

6. The Contractor must submit proof that his/her firm has the ability to interface with MD-WASD and familiarity with County guidelines. The ability will be based upon the evaluation of the Company by "Past Performance Evaluations" (PPE) from the Miami-Dade County approach, including experience in the Rehabilitation of sanitary sewers by the Cured-in-Place lining Method (CIPP) projects under WASD's Contracts.

7. The successful bidder shall submit a schedule of their proposed work, as bid, including information on the experience of the firm, the personnel assigned to the repair work, and especially the experience of the crew leaders who will actually run the work in the field, as well as information on all equipment and the type of process that will be used for lining (see Questionnaire in the Proposal).

8. The contract will not be awarded, and no work shall commence until these submittals have been approved and the successful bidder has received a written Notice to Proceed, respectively.

9. Department reserves the right to reject individual crew leaders due to either inadequate experience or unsatisfactory or poor performance on the job (in the Department's or the Engineer's opinion). Along with his bid, the Contractor must submit proof that his/her firm has been regularly and successfully engaged in the commercial installation of the liner product for a minimum of one (1) year and has successfully performed an aggregate amount of at least 500,000 linear feet of sanitary sewer repairs of pipes 6 through 36 inches in diameter (or larger) in subaqueous conditions.

10. The requirement for 500,000 LF installation experience shall be on watercured application only.

11. Bidders are required to submit proof that his/her firm has three separate independent Main Line Lining Crews available for the duration of the Contract. Bidders shall provide crew information with their Bid submittal. The independent Main Line Lining Crews shall be available at all times unless otherwise approved by the Department.

12. The Bidder must have a minimum of five (5) years of experience, under its current business name (which can include the experience of key supervisory employees that would man the project), in the construction of roadway / horizontal projects of similar scope and scale involving public right-of-way construction/installation/repair/replacement of main water distribution systems and/or main sanitary sewer collection systems including gravity sewer service laterals with assemblies, and maintenance of vehicular traffic, supported by references for three (3) projects completed within the past ten (10) years. Submitted reference Projects must demonstrate that the Bidder served as the Prime Contractor for the referenced Projects provided.

13. The Bidder must demonstrate that it has full-time personnel with the necessary experience to perform the Project's Scope of Work. This experience shall include work in successfully completed projects performed by the identified personnel whose bulk of work performed in the public right-of-way is similar in detail to the Project's Scope of Work described in these Solicitation Documents. Demonstrate the experience requirement by providing a detailed description of at least three (3) projects similar in detail to the Project's Scope of Work described in these Solicitation Documents and in which the Bidder's identified personnel is currently engaged or has completed within the past ten (10) years. List and describe the aforementioned projects and state whether the work was performed for the County, other government clients, or private entities.

The description must identify for each project:

1) The identified personnel and their assigned role and responsibilities for the listed project

2) The client's name and address including a contact person and phone number for reference.

3) Description of work

4) Total dollar value of the contract

5) Contract duration

6) Statement or notation of whether Bidder's referenced personnel is/was employed by the prime contractor or subcontractor, and

7) For completed projects, provide letters of certification of final acceptance or similar project closure documentation issued by the client and available Contractor's performance evaluations.

14. The County reserves the right to request additional information and/or contact listed persons pertaining to bidder's experience.

The County reserves the right to request additional information and/or contact listed persons pertaining to bidder's experience.

The Bidder must demonstrate that the company has full-time personnel with the necessary experience to perform the project's scope of work. This experience shall include identifying successfully completed projects where personnel have performed the bulk of the work, and which best illustrate their ability to perform the requested services while meeting project schedules and budgets.

Vendor Selection

At the time of Bid and pursuant to the requirements of Section 10-3 of the County Code, as well as the Solicitation and Contract Documents, the Bidder must hold a valid, current, and active license in the following disciplines:

a. Underground Utility and Excavation
b. Pipeline Engineering
c. General Contractor.

In addition to the license requirements, The Prime Contractor and personnel shall have experience with installation of water or sewer pressurized pipe 36-inches or larger. The Contractor shall demonstrate their experience by providing details about three (3) projects on which the Contractor acted as the Prime Contractor and completed in the past ten (10) years that involved the installation of water or sewer pressurized pipe 36-inches or larger.

At least one (1) of the three (3) projects shall include a directional drill 24-inch or larger. At least one (1) of the three (3) projects shall include a microtunnel 24-inch or larger. The Contractor must also show that it has cumulatively installed a total of over 1,000 Linear Feet of pipe 36-inches or larger during various projects over the past ten (10) years.

The Directional Drilling Sub-Contractor shall have at least five (5) years of continuous experience performing directional drilling projects. The Directional Drilling Sub-Contractor shall provide three (3) projects including directional drilling pipe 24-inch or larger.

The Microtunneling Sub-Contractor shall have at least five (5) years of continuous experience performing microtunneling projects. The Microtunneling Sub-Contractor shall provide three (3) projects including microtunneling pipe 24-inch or larger.

Verifiable references are required with Project Name, Organization Name, Contact Person, Phone Number, Date of Work, and Description of Work Performed. Submit experience history with references on the two most recent contracts along with the bid. The work shall have been completed with the Contractor's own forces or key personnel with any applicable permits secured by the Contractor.

The experience of key senior personnel with other firms may be counted toward the experience requirement, if acceptable to the Engineer. Should such evidence not be satisfactory to the Engineer, whose decision shall be final, the bid will be considered non-responsive, and the second low bidder will be considered for award.

In the event a firm consists of executives, supervisors, and other senior field staff (key employees) that would have met these minimum experience requirements with a prior firm, WASD reserves the right to qualify the firm based on WASD's sole determination and evaluation of the knowledge and prior experience of these key employees employed by the new firm.

The Bidder must demonstrate that the company has full-time personnel with the necessary experience to perform the project's scope of work. This experience shall include identifying successfully completed projects where personnel have performed the bulk of the work, and which best illustrate their ability to perform the requested services while meeting project schedules and budgets.

Vendor Selection

Pursuant to the requirements of Section 10-3 of the County Code, as well as the Solicitation and Contract Documents, at the time of bid, the Bidder must hold one of the following valid, current, and active credentials:

a) Certificate of Competency from the County's Construction Trades Qualifying Board as a General Engineering Contractor;
or
b) Certification, as a General Contractor, provided by the State of Florida Construction Industry Licensing Board, pursuant to the provisions of Florida Statutes Chapter 489.115.

In addition to the license requirements, the Bidder must:

1. Provide as part of their references a minimum of two (2) similar projects completed and accepted by the project owner prior to the bid submittal date under its current business name within the last seven (7) years as the Prime. Each project must be under a different contract. The Bidder must also state their proposed project manager by name and list a minimum of one (1) similar project managed by him/her with references along with his/her resume.
2. The Bidder must demonstrate the experience requirements by:
   a) Providing a detailed description of those projects similar in detail to the Project's Scope of Work described in these Solicitation Documents, and in which the Bidder's identified personnel that has completed the work. List and describe the aforementioned projects and state whether the work was performed for the County, other government clients, or private entities.
   b) For each project listed, it shall have been completed and accepted by the project owner prior to the bid submittal date.
   c) The description for each project must include the following:
      1) Identified personnel, their assigned role and responsibilities for the listed project
      2) The client's name, address and contact person and phone number for reference
      3) Description of work
      4) Total dollar value of the contract
      5) Contract duration
      6) Statement or notation of whether Bidder's referenced personnel is/was employed by the prime contractor or subcontractor, and
      7) Letters of certification of final acceptance or similar project closure documentation issued by the client and available Contractor's performance evaluations.
3. Similar projects are hereby defined as projects pertaining to process systems of similar size and scope within either a Water Treatment Plant or Wastewater Treatment Plant and experience with 12.5% to 15% concentration of sodium hypochlorite fiberglass-reinforced plastic storage tanks and process delivery system. The intent is to have the Bidder with knowledge of Plant operations for this project's multi-discipline construction and project startup requirements.
4. Qualifications' eligibility determination is at the sole discretion of WASD or the Engineer. The successful Bidder cannot replace their project manager at any time after bid or during the project without providing a suitable replacement which is determined under the sole discretion of the Department.
5. With the bid, the successful Bidder shall submit proof that his/her firm has at least the minimum successful contract experience as required for this Contract being bid.
6. The Bidder must demonstrate that it has full-time personnel with the necessary experience to perform the Project's Scope of Work.
7. In the event a bidder is established by executives, supervisors and other senior field staff (key employees) that would have met these minimum experience requirements with a prior firm, OWNER reserves the right to qualify the firm based on OWNER's sole determination and evaluation of the knowledge and prior experience of these key employees employed by the new firm.

Vendor Selection

In addition to the general qualifications provided in SP 1.0 ADDITIONAL QUALIFICATIONS OF BIDDERS, the Bidder shall also meet the requirements shown below and shall submit satisfactory proof and qualifications demonstrating compliance with the Bid.

LICENSE REQUIREMENTS:

One of the following licenses is required: State General Contractor, General Engineering Contractor and/or other categories as applicable by Chapter 489 of the Florida Statutes or County Code Chapter 10.

EXPERIENCE:

A. The Bidder shall have successfully completed a minimum of one (1) project demonstrating experience with electrical distribution building and generation facility construction projects having a total construction value greater than $50 million at a water or wastewater treatment facility or two (2) industrial buildings with medium voltage electrical distribution and generation each one with a value greater than $40 million. These projects shall have been completed within the past fifteen (15) years from the date of the Invitation to Bid.

B. The Bidder's project manager shall have successfully completed a minimum of one (1) project demonstrating project management experience with large water or wastewater treatment plant upgrade projects having a total construction value greater than $50 million. This project shall have been completed within the past fifteen (15) years from the date of the Invitation to Bid or is currently under construction and at least fifty percent (50%) complete by the date of the Invitation to Bid.

C. The Bidder or one of its Subcontractors must have successfully completed the construction and/or rehabilitation of a minimum of two (2) fuel storage facilities with at least 3 storage tanks. The scope of work for the identified projects must have been performed while maintaining operations of an active facility. These projects shall have been completed within the past fifteen (15) years from the date of the Invitation to Bid.

D. The Bidder or Bidder's Electrical Subcontractor must have successfully completed the construction and/or rehabilitation of a minimum of two (2) electrical distribution rooms with multiple paralleled diesel engine type generators. The scope of work of the projects must have been performed while maintaining operations of an active facility. These projects shall have been completed within the past fifteen (15) years from the date of the Invitation to Bid.

E. The Bidder or Bidder's Electrical Subcontractor shall have successfully completed a minimum of three (3) projects demonstrating experience procuring and installing main electrical equipment, medium and low voltage power supply systems, including transformers and switchgear. The scope of work for the identified projects must have been performed while maintaining operations of an active facility. These projects shall have been completed within the past fifteen (15) years from the date of the Invitation to Bid. F. The Bidder or Bidder's Electrical Subcontractor Lead Electrician shall have successfully completed a minimum of one (1) project demonstrating experience with medium and high voltage power supply systems, including transformers and switchgear. The scope of work for the identified project must have been performed while maintaining operations of an active facility. This project shall have been completed within the past fifteen (15) years from the date of the Invitation to Bid. G. The Bidder or Bidder's Instrumentation and Controls Subcontractor shall have successfully completed a minimum of one (1) project demonstrating experience with instrumentation and controls including connections into an existing SCADA. The scope of work for the identified project must have been performed while maintaining operations of a water or wastewater treatment facility. This project shall have been performed within the past fifteen (15) years from the date of the Invitation to Bid. H. The Bidder or Bidder's HVAC Subcontractor shall have successfully completed a minimum of one (1) project demonstrating experience with HVAC equipment including cooling towers. The scope of work for the identified projects must have been performed while maintaining operations of an active facility. This project shall have been performed within the past ten (10) years from the date of the Invitation to Bid. I. The Project Management Team of the Bidder or Bidder's Subcontractor must include an Envision Sustainability Professional (ENV SP) as credentialed by the Institute for Sustainable Infrastructure (ISI) who will serve as the Envision Coordinator. This person must have experience with the Envision certification process. The Envision Coordinator is a key person, changes of which will be subject to approval by WASD. Please refer to General Contract Conditions Article 5, Paragraph K. J. Demonstrate the experience requirement(s) by: a. Providing a detailed description of the project(s) similar in detail to the Project's Scope of Work described in these Solicitation Documents and in which the Bidder's identified suitable. List and describe the aforementioned projects and state whether the work was performed for the County, other government clients, or private entities. b. The description for each project must include the following: 1) Identified personnel, their assigned role and responsibilities for the listed project 2) The client's name, address and contact person and phone number for reference 3) Description of work 4) Total dollar value of the contract 5) Contract duration 6) Statement or notation of whether Bidder's referenced personnel is/was employed by the prime contractor or subcontractor, and 7) Letters of certification of final acceptance or similar project closure documentation issued by the client and available Contractor's performance evaluations. K. The County reserves the right to request additional information and/or contact listed persons pertaining to bidder's experience.

The Prime Consultant should identify all members of the proposed design team, specifying the overall design manager(s) and team leaders for each major design discipline, including process treatment, civil, structural, mechanical, electrical, and instrumentation engineering. The submittal should clearly define the specific role and responsibilities of each team member within the project scope. To demonstrate relevant experience, the Prime Consultant should provide detailed descriptions of two (2) successfully designed, constructed, and operational new or majorly retrofitted water treatment plants, each with a permitted capacity of fifty (50) MGD (million gallons per day), completed within the seven (7) years preceding the solicitation date. For each example project, the Prime Consultant shall indicate which members of the proposed design team participated and their specific roles. The narrative should highlight notable project achievements such as adherence to schedule and budget, innovative design solutions, implementation of new technologies, or cost-saving measures. The Subconsultants should demonstrate experience on one (1) project relevant to the scope of work and aligned with their proposed responsibilities under this contract.

At the time of Bid and pursuant to the requirements of Section 10-3 of the Code of Miami-Dade County, Florida and these Solicitation and Contract Documents, The Bidder or the Bidder's Subcontractor shall have as a minimum the following licenses: 1) General Contractor, 2) Electrical Contractor, 3) Roofing Contractor, 4) Mechanical Contractor, 5) Underground Utility and Excavation Contractor 6) Pile Driving/ Foundation Contractor, 7) Other categories as applicable by Chapter 489 of the Florida Statutes or Chapter 10 of Miami-Dade County Code. 8) Other requirements for comparable projects as described in Project Documents, Special Provisions for Contract No. S-952. EXPERIENCE: A. In addition to submittal requirements stated elsewhere, the successful Bidder shall submit with the bid proof that his/her firm has at least the minimum successful contract experience and qualifications as required below for this CONTRACT being bid. Such proof shall consist of a list of projects, that achieved substantial completion prior to the date of the Invitation to Bid, with the names and telephone numbers of the Owners or representatives that OWNER can contact to confirm the listed experience and the substantial completion date. To qualify for WORK on this CONTRACT, the Bidder or Bidder's Subcontractor shall be experienced in Wastewater Treatment Plant (WWTP) upgrades, and have Large Diameter Pipe, Electrical, Auger Cast Piling, Water or Wastewater Pump Station and I&C (Automation) experience. The OWNER, in its sole discretion and with technical evaluation by the Engineer of Record (EOR), shall determine whether the submitted experience satisfies the Project's qualification requirements. B. The Bidder's proposed Project Manager shall have successfully completed at least two (2) projects of construction valued at $25M each as Project Manager (PM) on a treatment plant with a pump station or a pump station project. PM must have at least 10 years of civil construction experience including at least 5 years of water or wastewater treatment plants or pump stations. These projects shall have achieved substantial completion within the past ten (10) years from the date of the Invitation to Bid. C. The Bidder shall have successfully completed a minimum of two (2) projects demonstrating experience with wastewater treatment upgrade projects having a total construction value (for each project) of greater than $75 million. These projects shall have achieved substantial completion within the past ten (10) years prior to the date of the Invitation to Bid. D. The Bidder shall have successfully completed a minimum of two (2) projects demonstrating experience in procurement and installation of process equipment, construction of pump stations including installation of vertical turbine pumps, HVAC equipment, electrical power systems, and installation of instrumentation and controls including connections into an existing SCADA in water or wastewater treatment plants or pump stations with firm pumping capacity (defined as capacity of the pump station with the largest unit out of service) of 35 mgd or greater. These projects shall have achieved substantial completion within the past ten (10) years prior to the date of the Invitation to Bid. The Bidder shall provide confirmation with documentation of the required project experience. E. The Bidder or Bidder's Specialty Subcontractor must have successfully completed at least two (2) projects that each included the installation of at least 1,000 linear feet of Prestressed Concrete Cylinder Pipe (PCCP) or Ductile Iron Pipe (DIP) 48-inch diameter or larger that have achieved substantial completion within the past ten (10) years prior to the date of the Invitation to Bid. The experience may be demonstrated by the Bidder or a Specialty Subcontractor for their discipline work. The Bidder shall provide confirmation with documentation of the required project experience. F. The Bidder or the Bidder's Electrical Subcontractor shall have successfully completed a minimum of three (3) projects demonstrating specialty experience procuring and installing main electrical equipment; medium voltage electrical power systems, including medium voltage motors and starters; transformers and switchgear; and low voltage power systems, including low voltage motors and variable frequency drives (VFD). These projects shall have achieved substantial completion within the past ten (10) years prior to the date of the Invitation to Bid. The Bidder shall provide confirmation with documentation of the required project experience. G. The Bidder or the Bidder's Electrical Subcontractor's Lead Electrician shall have successfully completed a minimum of one (1) project demonstrating experience with medium or high voltage electrical power supply systems, including medium voltage motors and starters; transformers and switchgear. This project shall have achieved substantial completion within the past ten (10) years prior to the date of the Invitation to Bid. The Bidder shall provide confirmation with documentation of the required project experience. H. The Bidder's Auger Cast Pile (ACP) Specialty Subcontractor shall have (see Specification Section 31 63 13) at least five (5) years of experience and at least five (5) successful installations of similar type, size (diameter), length and quantity to those required for support of the project structures. These installations shall have been on Projects within the past five (5) years prior

	to the date of the Invitation to Bid. The superintendent proposed for the ACP WORK shall have at least five (5) years of experience and shall be experienced in auger cast piling operations of this class and nature. The Bidder shall provide confirmation with documentation of the required project experience. I. The Bidder or Bidder's Instrumentation and Controls (I&C) Specialty Subcontractor shall have successfully completed a minimum of two (2) projects demonstrating experience with instrumentation and controls automation including connections into an existing SCADA. The experience may be demonstrated by the Bidder or a Specialty Subcontractor for their discipline work, these projects shall have achieved substantial completion within the past ten (10) years prior to the date of the Invitation to Bid. The Bidder shall provide confirmation with documentation of the required project experience. J. The Bidder's Environmental Consultant shall have successfully completed a minimum of two (2) projects that required the implementation of a Soil and Groundwater Management Plan and Dust Control Plan (SGWMP) following RER requirements. The Environmental Consultant shall indicate that he/she is familiar with WASD'S Clean Fill Policy (EPG-46). The Environmental Consultant shall be a Professional Engineer experienced in the field of geotechnical engineering and licensed in the State of Florida with current technical certifications in Miami Dade County. Bidder shall provide confirmation of Environmental Consultant name and documentation of the required project experience. In the event a firm is established prior to bid submission by executives, supervisors, and other senior field staff (key employees) that would have met these minimum experience requirements with a prior firm, OWNER reserves the right to qualify the firm based on OWNER's sole determination and evaluation of the knowledge and prior experience of these key employees employed by the new firm. The experience of key senior personnel with other firms may be counted towards the experience requirement, if acceptable to the ENGINEER. Should such evidence not be satisfactory to the ENGINEER, whose decision shall be final, the bid will be considered non-responsive, and the second lowest bidder will be considered for award. The qualifying proof shall be submitted in a separate sealed envelope with the bid.

	Accelerate Ordinance No. 14-77 Yes/No	ISD Project No. & Commission Districts & Project Description	Contract Amount & OMB Project No.	ISD Review SBE Goal (Small Business Enterprise) Architectural/ Engineering (A/E), Construction, Goods & Services (G/S)	Proposed Method of Award	Advertisement Date COS Begins	Industry Pre-Submittal Conference (Project Briefing	First Tier/Step 1 Selection Second Tier/Step 2 Selection Oral Presentation	BCC Committee Meeting BCC Meeting Date	Firms Awarded, Status and Comments * Projects Under the Cone of Silence (COS)
LICENSES REQUIRED: At the time of Bid and pursuant to the requirements of Section 10-3 of the Code of Miami-Dade County, Florida and these Solicitation and Contract Documents, the Bidder must hold a valid, current, and active Certificate of Competency from the County's Construction Trades Qualifying Board as a General Engineering Contractor. The Prime Contractor must hold the FDOT prequalification for the Minor Bridges work class at the time of the bid response. EXPERIENCE: 1. In addition to the license requirements, the bidder must have a minimum of three (3) years of experience, under its current business name (which can include the experience of key supervisory employees that would man the project), in the construction of roadway/horizontal projects of similar scope and scale involving public right-of-way construction/ installation/ repair/ replacement of bridges, culverts, bridge demolition, roadway lighting systems, and maintenance of vehicular traffic, supported by references for a minimum two (2) projects completed within the past ten (10) years. Submitted reference Projects must demonstrate that the Bidder served as the Prime Contractor for the referenced Projects provided. 2. The Bidder must demonstrate that it has full-time personnel with the necessary experience to perform the Project's Scope of Work. This experience shall include work in successfully completed projects performed by the identified personnel whose bulk of work performed in the public rightof-way is similar in detail to the Project's Scope of Work described in these Solicitation Documents. Demonstrate the experience requirement by: a. Providing a detailed description of at least two (2) projects similar in detail to the Project's Scope of Work described in these Solicitation Documents and in which the Bidder's identified personnel are currently engaged or have completed within the past ten (10) years. List and describe the aforementioned projects and state whether the work was performed for the County, other government clients, or private entities. b. For each project listed, the bridge, culvert, and roadway lighting system shall have been completed and accepted by the project owner prior to the bid submittal date. The description must identify for each project: The identified personnel and their assigned role and responsibilities for the listed project; The client's name and address including a contact person and phone number for reference; Description of work; Total dollar value of the contract; Contract duration; Statement or notation of whether Bidder's referenced personnel is/was employed by the prime contractor or subcontractor; and for completed projects, provide letters of certification of final acceptance or similar project closure documentation issued by the client and available Contractor's performance evaluations. 3. The County reserves the right to request additional information and/or contact listed persons pertaining to the bidder's experience. This Project might be considered a multiple trade project. None of the primary trade related work shall be subcontracted. Only ancillary work required to complete this Project may be subcontracted with prior approval from the Department. In the event a firm is established by executives, supervisors, and other senior field staff (key employees) that would have met these minimum experience requirements with a prior firm, OWNER reserves the right to qualify the firm based on OWNER's sole determination and evaluation of the knowledge and prior experience of these key employees employed by the new firm. The experience of key senior personnel with other firms may be counted towards the experience requirement, if acceptable to the ENGINEER. Should such evidence not be satisfactory to the ENGINEER, whose decision shall be final, the bid will be considered non-responsive, and the second lowest bidder will be considered for award. The qualifying proof shall be submitted in a separate sealed envelope with the bid.

Vendor Selection

Pursuant to the requirements of Section 10-3 of the Miami-Dade County Code, as well as the Solicitation and Contract Documents, at the time of bid, the Bidder must hold one of the following valid, current, and active credentials:

LICENSES REQUIRED:

General Contractor, General Engineering, Pipelines Engineering Contractor, Underground Utility / Excavation, Miami-Dade County - Marine Contractor Certificate of Competency

EXPERIENCE:

The following are additional requirements in addition to the license requirements:

A. Within the bid, the successful Bidder shall submit proof that their firm has at least the minimum successful contract experience required below for this Contract. Such proof shall consist of a list of projects completed, as evidenced by issuance of Final Completion certification, prior to the bid due date, with the names and telephone numbers of the owners or representatives that WASD can contact to confirm the listed experience.

B. In addition to submittal requirements stated elsewhere; to qualify for work on this Contract, the Bidder shall be experienced in the construction and/or rehabilitation of marine seawalls and the installation of steel sheet piles.

C. The Bidder must have successfully completed, as evidenced by issuance of Final Completion certification, the construction and/or rehabilitation of a minimum of three (3) marine seawalls within the last ten (10) years.

D. The Bidder must demonstrate that their firm has full-time personnel with the necessary experience to perform the Project's Scope of Work. The Bidder shall provide a list of no less than three (3) references who can confirm that the Bidder has successfully completed construction projects involving the construction and/or rehabilitation of marine seawalls and installation of steel sheet piles. Each reference shall include the following: contact's name, telephone number, e-mail address, and project location.

E. In the event a firm is established by executives, supervisors, and other senior field staff (key employees) who would have met these minimum experience requirements with a prior firm, WASD reserves the right to qualify the firm based on the Department's sole determination and evaluation of the knowledge and prior experience of these key employees employed by the new firm. The experience of key senior personnel with other firms may be counted towards the experience requirement if acceptable to the Engineer of Record (EOR). Should such evidence not be satisfactory to the EOR, whose decision shall be final, the bid will be considered non-responsible, and the second lowest bidder will be considered for award. The qualifying proof shall be submitted in a separate sealed envelope with the bid.

F. The Bidder must demonstrate that the company has full-time personnel with the necessary experience to perform the project's scope of work. This experience shall include identifying successfully completed projects where personnel have performed the bulk of the work, and which best illustrate their ability to perform the requested services while meeting project schedules and budgets.
